The report, made by Charles Hassler, an explorer, stated that Redfern (inset) is living with a semi-civilized tribe of Indians which treats him as a king.

## "Counsellor-At-Law" To Bring Paul Muni To Shubert Theatre

Paul Muni, the celebrated actor known as a motion picture and stage star, will make his first personal appearance in a legitimate play since his rise in pictures in "Counsellor-at-Law," the sensational success by Elmer Rice, which will open at the Shubert Theatre, Boston, for a limited engagement of three weeks only beginning Monday evening, January 9th after more than a year's run in New York. "Counsellor-at-Law" will introduce Elmer Rice, known as a famous American playwright, whose "Street Scene" won the Pulitzer Prize, as an independent producer. The play has been such a tremendous success that rabbinical ministers, teachers and lecturers have talked of it to their followers and the character of George Simon, portrayed by Muni, has become one of the outstanding figures in dramatic literature.

A distinguished cast of thirty, which has gained favor on Broadway, directed by the author, will support Paul Muni and will include such favorites as Jennie Moscovitz, Regina Wallace, Anne Teeman, Dorothy Day, Conway Washburne, Martin Wolfson, Jack Leslie, Elmer Brown, Ned Gines, Sue Moore, Malka Kornstein, Angela Jacobs, Sam Bonnell, Doris Underwood, John Crump, John M. Qualen, T. H. Manning, J. Hammond Dailey and others. The play which is in three acts and eleven scenes, has two elaborate settings designed by Raymond Sorey, one of America's foremost scenic artists.

"Counsellor-at-Law" combines thrilling melodrama with heart-throbbing pathos and scintillating comedy. It deals with the rise of a Jewish lawyer from obscure and impoverished background to the heights of his profession and the social world. When his career is threatened because a rival unearths an early misdeed, the loyal friends of his youth and his own astute brilliance help him out of his difficulties. The manner in which he outwits his rivals affords an evening of highly diverting entertainment.

## LOCAL ATHLETES HELP NORTHEASTERN UNIV. IN RECORD SPORT YEAR

Northeastern University will recall 1932 as the most successful year in its sports history, the highlights including the establishing of football as a major sport, an undefeated mile relay team indoors, the small college hockey championship, and a New England Intercollegiate discus champion. Arlington youths took active part in Northeastern sports last year. The Huskies outscored their opponents over the period, 923 1-2 to 851 1-2, winning 30 of the 43 varsity contests scheduled. Soccer, played as the major fall sport for the past decade at Northeastern, was dropped in September to make room for football. While the Huskies were undefeated on the pitch in '28 and '30, student interest did not warrant the continuation of the Scotch pastime.

Coach Al McCoy's basketball quintet took ten of its fifteen open victories were scored over Rhode Island State, Tufts, Middlebury, Arnold and Clark, the latter twice. Capt. LeRoy Rymph, Poughkeepsie; Elmer Hintz, New Haven; Raymond Coughlan, Revere; Gilbert MacDonald, Hanover; and Ralph Christensen, Quincy, all seniors, represented the best quintet ever to step on a Northeastern basketball court. As this year's Alumni team, they forced the varsity into overtime to win the annual contest, opening the present hoop season. Clarkson Tech, recent victor over M. I. T., U., and Tufts, had a terrific battle with McCoy's present charges, needing two overtime periods to take out a one-point win.

Capt. Francis Shea, Lynn; Wilrose Hanson, Marlboro; James Falt, Quincy; and Robert Grieve, Waterbury, Ct.; showed their flying heels to all relay opponents on the boards last winter over the mile distance, setting up a new Northeastern record of 3 mins. 27.35 sec. at the Millrose games in New York as they defeated Fordham and St. John's. Other wins included a victory over Boston College and M. I. T. at the University Club games, and wins from New Hampshire and Mass. State at the B. A. A. meet.

Rymph was the star of the track team, paired with Gay Milbrandt, Bristol Ct. in the weights. He won the New England Intercollegiate discus title. In the meet at Brown, Bill Hanson broke the existing N. U. record for the 300 in Brown dual meet, running in 34 and 25 seconds. Milbrandt pushed the Greater Boston Intercollegiate 16-lb. shot mark up to 46 feet 3 1-2 inch at the Stadium. Rymph broke the N. U. discus mark in the G. B. I. games, throwing the "platter" 148 feet 3 3-4 inches, and the hammer mark with a throw of 147 feet 1 and 13 inch. Joe Stanley cracked the Husky 1000 yd. record, doing 2 minutes 24 and 4-5 sec. during the Brown dual at Providence. James McCradden broke the N. U. 600 yd. record at Brown, reducing it to 1 min. 18.25 sec.

In taking the mythical small college hockey title of New England, the Huskies, coached by Nelson Raymond, were undefeated on home ice, losing only to Brown in Providence, and later avenging that defeat at the Boston Arena. The Huskies twice took M. I. T., a double winner over Boston University, and Tech beat Brown. Other Northeastern victories were scored over Bowdoin, Colby, and New Hampshire. The success of the Huskies on the ice was due largely to the fine offensive trio of Capt. Bill Carter, Needham, Herb Gallagher, Newton, and Simon Anderson, Peabody.

### Coach Downes' Ice Team Springs Surprise By Defeating Rindge Tech In League Opener—Game At Boston Garden One Of Best Played By High School Teams—Sullivan Is Outstanding—Score Is 4 To 0

The Arlington High hockey sextet surprised all the fans, writers and officials by springing a tricky, hard playing team on a weak Rindge team at the Boston Garden last Saturday. It had been expected that Rindge would take Arlington but Rindge showed up even poorer than did Arlington.

Sullivan was the star of the game with three goals, one of which was not chalked up to him. Lane and Bullock put up an almost impassable defense while Sakolan in the goal was brilliant.

Arlington blanked Rindge 4 to 0 in this league opener. Sullivan scored the first goal of the interscholastic league. Arlington had the least speed of any team on the ice, but for general ruggedness and passing they far outshone all but Newton. This school has a very rugged team but their passing was the worst on the ice.

The Arlington dynamite line of Sullivan, Greco, and Collins for pure stick handling stood out on the Garden ice. They are not fast, but they have all the tricks of the sticks and Sullivan seems to be just in the right place when the puck is passed out. He will prove to be sensational in the league this year if he keeps up the way he started off.

Collins, Sullivan, and Greco started the game. Sullivan got the faceoff and both teams felt each other out for the first three minutes and a new line came in for Arlington, Mee, Lax and Norberg. This line put pep into the Arlington team and they were prevented from scoring only by the superb work of Roscio, the Rindge goalie, who made two brilliant saves on Lax who was through twice on the defense. Staaf, Byrne, and Gardella was the next line. They are the lightning line of the team as they have all the speed and will undoubtedly prove their worth later in the season when they have the feel of the ice better. Gardella was a threat all the time he was in there. He started off by breaking through the Rindge defense and passing to Byrne who just missed scoring.

**Dynamite Line Scores**  
The Dynamite line came back in and Sullivan hooked the puck on the faceoff to Collins who took it on the right wing, outskated the Rindge left wing, cut back into the center and passed through the defense to Sullivan who let a peach go for the first goal in eight minutes and fifteen seconds. The same play was pulled on the other side when Sullivan managed to get to faceoff and he passed to Greco who went

down the left lane and passed it into the center where Sullivan let another wicked shot go for a goal in just sixteen seconds after the first one. The official scoring for this goal was for Greco but there is much question as to just who did score it. From the Press box it looked very much like Sullivan. Arlington kept the game in Rindge territory for the remainder of the period.

**Second Period**  
Norberg, Lax and Mee, the kid line, held their own at the opening of the period and the Lightning line took their place. They were given a rest when the Dynamite line came in. This period was rather slow and was only pepped up a little when Collins was tossed in the cooler for roughness. Rindge tried to convert but the Arlington defense was air tight, especially Al Lane who was tossing them all over the ice.

**Third Period**  
The Dynamite line started the third period. They warmed up for about three minutes and then Collins in a locomotive rush went through the Rindge forward line, passed through the defense to Sullivan who looped it past the goalie who had been drawn off balance by Collins. This was in three minutes. The kid line came on next. Anais, the Rindge defense man who seems to be playing more for his name and roughness than for his hockey ability, was tossed out for two minutes and Lax and Mee teamed up to get the puck on the Rindge goalie who attempted to clear after Mee's shot and tossed the puck into the net. Lax was given the credit for this goal and he was the nearest at the time. This was in four minutes and ten seconds. Charlie Downes had his remaining subs in for the rest of the game and it became a little rough. Anais was given another two minutes rest and the last two minutes of play were pretty torrid, scoring being prevented only by the super goal tending of both goalies.

**Summary:**  
ARLINGTON HIGH—Collins, Mee, Staaf, rw; Sullivan, Lax, Byrne, c; Norberg, Gardella, lw; Lane, Cannell, rd; Bullock, B, rd; Sakolan (Capt.) g.

## To Be Taken At Face Value

When you pick up this newspaper and read the announcements of our local merchants, or those of national advertisers, you need never think to question the sincerity and honesty of their statements.

This reliance on Advertising has been brought about by Advertising, and is one of Advertising's greatest contributions to the satisfaction and ease of modern living.

An advertiser deliberately attempting to deceive takes the quick, short road to ruin. The insincere or extravagant statement may have its brief day. But the greater the attention it attracts, the sooner the public will discover and destroy its deceit.

The cornerstone of successful shopkeeping always has been "keep faith with the public," give honest values and truthfully represent the merchandise and its service. This principal had to find its expression in Advertising—for Advertising is nothing more than the owner of the store or a factory talking with people in their homes about such things as shoes and soap, radios and rugs, blankets and bloomers.

It pays to read the advertisements. They are first-hand news of what is being invented, fashioned, and perfected in the workshops of the world for your well-being, comfort and convenience.

# MEDFORD HIGH HELD TO SCORELESS TIE BY CAMBRIDGE LATIN

Four Games Mark The Opening of Greater Boston School Hockey League With Blue and White And Cambridge Unable To Count—Medford and Melrose Defending Co-Champions—Medford Six Not Quite Up To Form But Will Come Along—Coach Lang's Team Due To Be In Thick of Fight

The Medford High hockey team, co-defending champion in the Greater Boston Interscholastic League, was held to a scoreless tie by a much improved Cambridge Latin sextet on the Garden ice Saturday afternoon. Over 5000 spectators watched the eight school teams swing into their opening games with Melrose, Belmont and Arlington taking the honors for the afternoon.

The Medford team, except for brief spells, did not look its best, but for that matter all of the teams were not in real form. The Medford passing attack showed lack of polish with Captain Bob Chipman being forced to wade through the opposing defense on individual jaunts in order to bring the puck into scoring vicinity. Both Medford and Cambridge Latin did, however, display fair defenses which will loom large when the teams get into the thick of the campaign.

**Goals Scored Nullified**  
There were three goals scored, two by Medford and one by Cambridge Latin, all of which were nullified by slight infractions of the rules. Twice Medford players lifted the puck just inside the net but on both occasions one of the forwards was over the blue line ahead of the carrier and the whistle sounded to halt festivities for the moment.

Shortly after the opening face-off the Cantabs put on their first offensive threat with little Eddie Rooney and Babe Alt blazling through the Medford points to work in on Paul Kenney, Medford goalie, who was prostrate in front of the net. Kenney saved momentarily but a hectic scrimmage followed and it was some time before damage had been avoided.

**Chipman Nearly Scored**  
Just before the bell Medford showed a spurt which carried the front line in on Puzyn who saved nicely. Chipman came right back with a high angle shot which breezed right by Puzyn and hit

the post. Another inch on the right would have resulted in a Medford score.

After the teams had resumed their battle in the second period Medford held a slight advantage but the Cambridge defense was stubborn even when the Blue and White frontier did seem to click. Several times Chipman and John Muench drifted in and let drive torrid shots which Puzyn had some difficulty in saving but the longed-for score did not result.

**Medford Threats**  
On the opening face-off of the third period Chipman sailed up the left lane on a pretty solo dash but again fate was against him, the puck bounded off the post on the wrong side. Later Muench came up in combination with Chipman but the former's pass went wide in front of the net and Puzyn saved with ease.

Chipman did time in the cooler during the last minute of play and Cambridge made a desperate attempt to score. During those hectic moments Buck Wilkins and Eddie Riley did a sweet job on defense to prevent a score.

At the outset the Interscholastic League race looks like a mad scramble with Coach Al Lang's Medford six having possibilities of being in the thick of the fight.

## Company E Opens Season With Victory

Company E. Lawrence Light Guard of Medford, opened up its basketball season Saturday evening at Boston by turning the trick on the strong First Corps Cadets in a close game, 31-27.

The Cadets started off with a rush and for a time had the local Army boys dazzled. At the end of the first period the Cadets were in front by a considerable margin. But it was not for long until the Company E quintet found themselves and strengthened the defense. They trailed at halftime.

An offensive rally with Bud Hogan and Al Colclough bearing the brunt, put Coach Joe Reed's quintet of sharpshooters to the forefront. When the third stanza was concluded the Company led 25-17.

A last period onslaught of First Corps marked the closing minutes but the Medford five was well fortified to stave off this attack. The Cadets came fast as the game waned but not enough to win.

## OLD-AGE SECURITY

A writer in the American Mercury recently observed that there is one way of eliminating the danger of poverty-stricken old age—and a way which does not require government panaceas with added tax, bureaus and thousands more public employees. That way is by taking advantage of the annuity plan, which has long been offered by life insurance companies here and abroad.

There are two means of buying annuities—by the payment of a single premium, which is, of course, a means pursued only by persons of some wealth, and by the payment of small monthly or annual premiums out of income. Almost any wage earner can afford an annuity in some amount, even though it be small. It is the finest form of savings, in that the principal cannot be touched until the age stipulated in the contract has been reached—and then a definite monthly income is paid to the policyholder as long as he lives.

The importance of the annuity is tragically demonstrated by the spectacle of millions of aged men and women without incomes of any kind. Many of these once had money, many others once held well paid positions. Today they are wards of the state, or must depend for existence upon charity. The annuity would have saved them as, in the future, it will save those who take advantage of it now, when they are able to earn a good living and spare a few dollars a month for the sake of old-age security.

## THE WORLD'S GREATEST SERVANT

It has often been observed, in both normal and abnormal times, that electric power production is one of the best barometers of business.

For a solid year, up until recently, the industry's statistics showed steady and ominous drops in production. Then the market for power strengthened. Production at present seems to be holding its own.

In the domestic field the outlook is the most encouraging. Before September, 1931, the industry had an unbroken record of continuous monthly increases in the number of customers served. Twelve months of losses followed. Now the upward trend has started again, and the gain in September, over August, was about 10,000 meters.

Every time a new house is built, every time a factory resumes operation or increases output, the market for electric power widens, and employment increases. American industry has been gradually getting away from the use of mechanical power, which it found to be comparatively inefficient and wasteful, replacing it with electrical power. Many industries which once produced their own electricity have turned to private utilities, which offered better and more dependable service at a lower price.

And so electricity marches on—the world's greatest servant.

## GOOD ROADS, GOOD FARMS

Not a few of the American farmers' difficulties can be attributed to inefficient transportation facilities. The sort of "highway" that becomes a series of mudholes with the fall rains, and impassable during all or part of the winter, is a tremendous barrier to agricultural progress. It makes it impossible to market products at the most opportune time, adds to the cost of supplies and farm operation generally, increases the hazards of fire, illness and accident, lowers the educational opportunities of farm children, and wreaks social and financial havoc generally.

In the days when a good road meant a twenty to fifty-thousand-dollar-a-mile highway, there was some excuse for the lack of first-class secondary roads. That day has gone. Modern asphaltic materials and engineering technique will provide weatherproof, mudless and dustless, full-width highways for five thousand dollars a mile and less. Maintenance cost is likewise extremely low. Every dollar going into such practical roads is a business builder for town and country.

Now is the time to take the farmer out of the mud. It's a necessary step in laying the groundwork for prosperous agriculture and needed employment.

## Beauty in Sun and Snow

You pay your money and you take your choice. That is how the climate works out in these United States of ours. For instance, Helen Meany (left), one of America's outstanding swimmers and diving star, appears at her best at the seashore. She is shown on the beach at Miami, Fla. At right is Sari Maritza, screen actress, who makes a pretty picture as she sets off for a snow-shoe hike at Big Pine, Cal. Of course this was "unusual" weather in Southern California.

## A MESSAGE OF CHEER

Dear Daddy Sunshine:  
Once again we have witnessed the coming of a New Year. Most of us look back upon a year of discouragement, mistakes and failures, many thinking that nothing can be done, that it is too late to try. Many of us look ahead into a New Year and see nothing but failure and failures, plus more failures. But it is not so. If a person is wise or takes someone's advice, he will look ahead and see new ideas and new hopes, not failures and discouragement.

As the old year is ringing out, its last long peal, let us forget the discouragement and failures of that year, and as the New Year cries its first cry, let us look into a year of happiness and good hope.

This same idea is true with us Sunshiners. Now that the New Year has come, let us smile and have the world smile with us.

Here are the answers to the movie star puzzle:

An old member,  
Charlotte Arne,  
Main street,  
Medford, Mass.

Take Charlotte for another delightful letter and a message of cheer to all the members. Always your letter contains that cheerful note which should bring a feeling of new light to the easily discouraged. We all have our trials and sorrows, but we must be big enough to bear them, and not let them bear us down. No matter how great we may think our sorrow is, there are others whose griefs are a thousand times more. After all we are just here, as it were, for a probationary period, and naturally we are being tried like the millions and millions of others before us. Let us all be brave, like Charlotte, in the face of whatever discouragement or woe which may befall us. Let us bring sunshine to those who are less strong and unable to bear the burden or burdens which descend upon them. Yes—forget our own griefs in helping others to bear theirs. Daddy Sunshine has a ticket for you—Charlotte for answering the puzzle correctly. Will look forward Charlotte to your next message.

Not even in the merry atmosphere of mirth and music does Buster Keaton allow any expression of what our Parisienne friends call joie de vivre to appear on his poker face. The famous, lugubrious screen comedian is shown dancing with Eileen Branley, film actress, at the recent banquet for film folk at Agua Caliente. Maybe the band was playing a funeral dirge.

A bill was filed in the Legislature by Representative Albert W. This would remove the direct assessment against the cities and towns in the Metropolitan District for maintenance of such boulevards.

Under the present law, half the cost of maintaining the park boulevards is against the municipalities, according to their respective taxable valuations. The other half of the maintenance is paid for out of the highway fund.

THEY'RE Milder—  
THEY TASTE BETTER

—and I like CHESTERFIELD Cigarettes.

To me, they are mild—that is, they don't seem to be strong; and there is certainly no bite, so far as I can tell. To me, they taste better and they have a pleasing aroma.

Every CHESTERFIELD that I get is well-filled, and I feel like I am getting my money's worth—that there is no short measure about it.

I like CHESTERFIELDS. They satisfy me.

## Fire Starts In Closet Does \$400 Damage

Firemen were called by telephone Sunday evening at 7:22 for a fire which started in a second floor closet in the house at 86.88 South street and which resulted in damage estimated at \$400.

The fire went through the flooring to the attic and then spread under the roof, giving the firemen considerable trouble.

The house is owned by S. DeSimone of 84 South street and is occupied on the first floor by John J. Murphy and family and on the second floor by Alton Smith and family.

## Income Tax Forms To Be Released Today

Instructions have been received from Washington to release all Federal income tax blanks to taxpayers on Tuesday, January 3, according to an announcement made by Thomas W. White, Collector of Internal Revenue, at 22 Pearl Street, Boston.

The mailing of over one-half million income tax blanks for the calendar year 1932 from Collector White's office marks the beginning of the filing period, which extends from today until March 15, and taxpayers are urged in their own interest, to file their returns at the earliest possible date.

The Revenue Act of 1932 requires a single person to file a return if his net income is \$1,000, or gross income is \$5,000, or over. A husband and wife, living together, having an aggregate net income of \$2,500, or over, or aggregate gross income of \$5,000, or over, must file.

A single person is entitled to a personal exemption credit of \$1,000. A head of a family, or a married person living with husband or wife, is allowed a personal credit of \$2,500. \$400 is allowed as a credit for each person depending upon and receiving chief support from the taxpayer, providing that the dependent person is under eighteen years of age, or is incapable of self-support, because mentally or physically defective.

The rate of normal tax is 4 per cent on the first \$4,000, in excess of the credits allowed against net income, plus 8 per cent on the remainder. In addition, surtaxes are levied upon net income without benefit of the foregoing credits) in excess of \$6,000.

## What's a Little Snow to Him?

Disdaining the custom of most horse trainers who take their charges down South when the weather gets too severe, Walter Cox, of Goshen, N. Y., who has been training winners of the historic Hambletonian trotting stakes for 17 years, is shown putting "Moore Dear" through a brisk workout on the snow-covered track at Goshen. Cox scorns the idea that it is necessary to pamper a trotter by following the sun. He gets results by training his charges even in sub-zero temperatures.

## College Girls Make Merry

Vacationing Medford girls have recently been guests at some gay parties. Miss Muriel Stewart, daughter of Mr. and Mrs. Walter Stewart of Jackson road, West Medford, gave a luncheon-bridge at her home to a small group of friends.

## Frightful Increase In Number of Auto Deaths Last Week

Twenty-three adults and three children were numbered in the death list, a total of 12 more automobile deaths than in the week before, and also 12 more than in the corresponding week a year ago.

The registrar, commenting on the death toll, said: "Just why, with 37,000 less autos on our roads this year than last, there should be nearly twice as many victims of the motored chariots raking through our streets during Christmas week is a question for all thoughtful citizens to consider."

"Some carelessness on their part, no doubt, accounts for the large percentage of pedestrians in these figures, but the common alibi of the motorist that he did not see the victim until he hit him or her has become much too common."

Called Ghastly Record

"Twenty-six Massachusetts people killed in one week of the year that is supposed to be filled with peace and joy! It is a ghastly record and a deplorable commentary on our civilization that such a thing could take place and be regarded with calm indifference by the general public."

"Two flagrant cases of hit-and-run, the wrecking of horse-drawn vehicles as well as the lives of their occupants, the running down of pedestrians by cars and trucks with defective lights, crashes against poles and trees due to high speed and thoughtless driving, were some of the facts and factors that contributed to cause this frightful loss of life."

"The total motor vehicle deaths for the fiscal year 1932 now stands at 768. What finer resolution can any motorist make for the New Year than this: 'I am firmly resolved that during 1933 I shall take no chances while driving, and will do my part to lower the accident record of our highways?'"

## To Make Women In Maine Pay Poll Tax

AUGUSTA, Me.—Maine women of voting age will find it necessary to make provision in their annual financial budgets to pay a poll tax, if a bill providing for such a tax is passed by members of the 86th State Legislature, which convenes Wednesday.

This piece of legislation has been prepared by Dr. Roy L. Fernald of Winterport who said the Terriers have Danny Harrington, former football star who has made two letters in hockey; Lindsay, a two year veteran; and Johnny Walker, who played defense regularly last year.

## New Year's Driving Resolutions

A 30 per cent reduction in automobile fatalities, with a saving of 700 lives in 1933 could be accomplished in this State if every driver would adopt a simple set of eight New Year's driving resolutions, according to the Governor's Committee on Street and Highway Safety.

Investigation during the past few years has shown that 30 per cent of the fatal accidents result from eight different violations of the motor vehicle laws and regulations. All that is necessary, the committee says, to prevent them is that every Massachusetts driver resolve that, during 1933, he will not commit any of the following violations:

1. Driving at a speed too fast for existing conditions; first, in residential areas; second, in business or congested districts, and third, near schools and playgrounds.
2. Passing another car going in the same direction when the view ahead is obstructed.
3. Failing to keep to the right-hand side of the road.
4. Failing to slow down at intersections.
5. Failing to slow down on approaching pedestrians.
6. Failing to observe the eight-foot law with respect to standing tree cars.
7. Violation of traffic control devices: first by failing to obey traffic signal lights; and second, failing to come to a full stop at stop signs on through streets.
8. Dangerous and improper parking: Leaving a car on the traveled part of a State highway; second, parking in a double line; third, leaving a car on the wrong side of the street; and fourth, parking too close to a corner.

—Charles Springer, aged 8, of 81 Taft street, was taken to the Malden hospital Sunday afternoon under the care of Dr. Maguire.

## Boston U. Battles For College Crown

With the opening of the University today, Boston University's hockey team will resume its battle for Eastern collegiate ice recognition. Up to the present the Terriers have defeated with ease Brown and the Massachusetts Institute of Technology. They are now preparing for their tilts with Harvard, Yale and Princeton.

Although Boston University has never been outstanding in football the hockey teams have usually been its best sports representatives. As a rule the Terriers always break better than even through a schedule but this year it looks as though the puck-chasers are booked for a banner season. The team won six and lost four last year. They started slowly but came along rapidly toward the end of the season.

Dr. Wayland Vaughan, the Terriers' veteran coach, spent the greater part of last year building up his team play, since, as he was fortunate in having all sophomores and juniors on the varsity, he would have almost a complete unit returning.

This season Coach Vaughan planned on the same lineup he used last year to be used all season, but two of last year's freshmen completely upset this plan.

Johnny Lax and Paul Rowe, who starred at Arlington high school for three years and played sensational hockey with the freshman last year, are eligible for the varsity this year. Coach Vaughan had these boys slated for the second or third line until they got enough seasoning. The Arlington stars, however, evidenced by superior work in practice that they would be content with nothing but the first line. Lax, center and Rowe, wingman, are now teamed with "Whitey" Clem, high scorer for the past two years.

The success of these two boys brought about another problem. Captain Walter Bender, center for two years, and Lindsay Rice on left wing, had to be considered.

Coach Vaughan solved this puzzle by placing Captain Bender at defense and Rice on the second defense line. John Walker, regular defense man, was moved to the second forward line.

With Clem, Lax and Rowe as the dynamite line and Jim Smith, Russ Smith and John Walker as the second line, Coach Vaughan's attacking problem was settled.

As far as defense was concerned the Terriers' coach was not the least bit worried. Ronnie "Buck" Weaver of Woburn, captain last year and regular for the past three seasons, was again available and this 200 pounder continues to rate with the best college defense men in the East.

Bender and Weaver make a sturdy defense pair. In addition, the Terriers have Danny Harrington, former football star who has made two letters in hockey; Lindsay, a two year veteran; and Johnny Walker, who played defense regularly last year.

The net guardian was a very minor problem. Pete Wright, midjet goalie from Belmont, who won the job as a sophomore last year against keen competition, was the star of the team. His work against Princeton and Yale last year rated him as one of the finest goalies in this section. This year his work is better than ever since he is competing against Herman Nickerson, captain of the frosh team last year. Nickerson is also much better than the average college goalie.

In the two games this year the Terriers have lived up to their early season promise. They opened against Tech and after the regulars had registered six goals in the first two periods, the reserves were able to hold the Engineers during the last period. Tech's lone goal came when Boston University had two men in the penalty box.

Brown was Boston University's second opponent and the Bruins proved to be somewhat of a disappointment. The Terriers won 4 to 0, but for the sensational net work of Peckham, Brown's sophomore goalie, Boston University would have won more heavily.

The boys return from Christmas vacation today. On the 7th, they face Princeton and on the eleventh they meet Harvard. After these two games, hockey followers should form a definite opinion as to how successful Boston University will be with the rest of its hockey schedule.

The team is directed under the "player control" system, and during the course of a game, Coach Vaughan watches the game from the stands. Captain Walt Bender makes the necessary substitutions.

## Authorities To Take Action To Prevent Sale Of Bootleg Fuel Oil

Local and State authorities will take action to prevent the sale of a bootleg fuel oil, which may cause the users injury because of the highly explosive quality of the fluid sold.

It was announced that State chemists, at the expense of the communities, would analyze any oil submitted to the Fire Department by a purchaser who thinks that it is not the proper quality. Any seller of the "bootleg oil" will be prosecuted on a criminal charge.

It is said that the bootleg range oil is a mixture of automobile crankcase oil drainings, used as base, with a quality of gasoline known in the trade as "casing head." This oil when used for range oil, is highly explosive and endangers the user. It is stated.

State Fire Marshal Hurley said that he had received word of such a practice by various small fuel oil dealers. He said that he is now working on a plan whereby he will seek legislation to have all persons selling fuel oil obtain permits from local fire chiefs in their community and in this way compel the dealer to sell only the proper grade of fuel oil.

Persons suspecting that such fuel is being sold may communicate with the State fire marshal's office and action will be taken against the dealer immediately.

## "Depression Plants" Are Very Popular

"Depression Plants" have taken the city like the cross-word puzzle, and is increasing in popularity each day. Many of the plants are very beautiful to look at and as a consequence, there is rivalry to outdo the next door "depression" farmer.

The "depression" plant was developed when someone had an idea that chemical action of coal or coke, if mixed with water and other ingredients would form a pretty plant. Numerous experiments have been tried with coal and coke and unusually handsome flowers have been the result.

Our "formula" for the depression plant is as follows:

Take two or three pieces of coke and place in a bowl or jar. Add 6 tablespoons of water. Six tablespoons of bluing. Six tablespoons of salt. One tablespoon of ammonia. Stir well and then add two or three drops of iodine and nurochrome.

The plant will continue to grow if it is fed from time to time with added liquid, made up of the same mixture.
